

## BS50-2i BS60-2i BS70-2i

2 Stroke Rammer

### Comfort-Plus: Two-cycle rammer with separate oil injection

The patented oil-injected rammers offer the performance of two-cycle rammers with the convenience of a no-mix system. The two separate tanks for fuel and two-cycle oil eliminate premixing, plus an amazing fuel to oil ratio of 120:1 allows for longer and cleaner running times...up to 100 hours on a single tank of oil. The low oil shutdown prevents running the rammer without oil for trouble free operation. The oil-injected rammers come in three weight classes.

- Powered by Wacker Neuson's exclusive WM 80 engine specifically designed for tough rammer applications and meets all EPA and European emission standards
- Integrated fuel valve and gas lever provide simple operation and easy starting
- Unit will shut down if left idling for extended period of time, reduces emissions
- Optimized guide handle reduces vibration, improving operator comfort
- A unique four stage air filtration system provides a virtually dust-free engine for longer life and improved durability. The system includes a last chance filter that protects the engine during air filter maintenance.

### Technical specifications

	<b>BS 50-2i</b>	<b>BS 60-2i</b>	<b>BS 70-2i</b>
<b>Operating data</b>			
Operating weight lb	130	145	163.1
Ramming shoe size (WxL) * in	11 x 13	11 x 13	11 x 13
L x W x H in	26.5 x 13.5 x 37	26.5 x 13.5 x 38	26.5 x 13.5 x 38
Percussion rate max. blows/min	700	700	650
Stroke at the ramming shoe in	2.51	3.12	2.54
Operating speed ft/min	31.2	32.1	29.2
Surface capacity Compaction ft <sup>2</sup> /h	1,711.5	1,765.3	1,593.1
